

care prevents problems

You know that caring for your pet isn't a one-off visit to a vet in an emergency. As your "other family doctor", we partner with you to help your family's pet enjoy a longer and happier life.

At Care Veterinary Group we provide the services, advice and resources to help you be the best pet owner you can be, all year round.

care prevents problems

Surgical

We provide all your pet's surgical services including routine procedures such as desexing, as well as a full range of soft tissue and orthopedic surgery and dentistry procedures.

Medical

You can confidently bring your pet in to be examined by our highly trained professional staff. With up to date knowledge and technology they will examine and assess your pet's illness or injury and then administer the most appropriate treatment.

Emergency

We hope that your pet will never need our emergency services, however, it's comforting to know that we provide the services and care for animals requiring emergency, advanced or intensive treatment 24 hours a day. Your pet can be continuously monitored and nursed when they are in hospital after trauma, accident or other emergencies.

Diagnostic

Our diagnostic equipment allows us to investigate animal injuries and health problems and includes in-house pathology services, x-rays onsite and ultrasound equipment.

Preventative Care

Preventative health care such as vaccinations, heartworm prevention, flea and tick treatments and worming, all play an important role in the long term wellness of your pet. Routine checkups are a crucial service that we provide for your pet.

Puppy Preschool

Well socialised and trained dogs can be taken anywhere, are friendly with new people and dogs and are well-behaved at home. Puppy Pre-school can help you teach your puppy how to become this well-behaved member of society.

Grooming

We offer total grooming services carried out by our dedicated grooming team. With experience in all types of breeds, sizes and temperaments, our team are happy to groom your pet to your specific requests.
